

BRASS BRITE

COPPER AND BRASS BRIGHTENER

PRODUCT USE:

BRASS BRITE is a blend of acids and surfactants that is used as a copper and brass brightener.

ADVANTAGES:

- Excellent rinse-ability
- Works within seconds
- Leaves a bright and polished surface
- Ready for use at ambient temperatures
- Manufactured in South Africa under an SABS/ISO 9001 Quality System

PRODUCT DESCRIPTION:

Form: Clear Liquid
Colour: Pale green or light brown.
Odor: Acidic
S/G: 1.35 – 1.38
pH: < 1

DIRECTIONS FOR USE:

BRASS BRITE is supplied as ready for use as a dip application at ambient temperature. Components should be degreased prior to brightening if maximum benefit is sought from the product.

Immerse components for between 10 and 60 seconds, remove and rinse thoroughly with water. The tank may be topped up with fresh product when the efficiency drops or to compensate for drag-out losses.

NOTE: **TANK CONSTRUCTION** - Glass lined or heavy-duty polypropylene.

Ref. No. 01/24 as per supplier

PRECAUTIONS:

- Keep out of reach of children.
- Do NOT ingest. Toxic if inhaled.
- Product is highly corrosive.
- Store in a cool area away from direct sunlight in the sealed original container or in a properly constructed tank until required.
- Can cause severe skin burns and eye damage please use protective wear.
- Do not mix with other chemicals.
- Refer to MSDS for safety precautions.
