

MAGNUS 88-XL

ALL PURPOSE ACID DETERGENT CLEANER

PRODUCT USE:

MAGNUS 88-XL is a heavy-duty cleaner for removing, corrosion deposits from weathered aluminium, especially on truck and trailers, where road film is also removed.

MAGNUS 88-XL quickly "cuts" through diesel exhausts stains, loose dirt and heavy road soils, leaving surfaces clean and bright in one application. It may also be used to clean stainless steel.

ADVANTAGES:

- Economical
- Safe to use at suggested dilutions
- Easy to handle and use
- Mixes instantly with water
- Does not form white deposits following dry-on

PRODUCT DESCRIPTION:

Form: Clear liquid
 Colour: Yellow-Green or straw colour
 Ingredients: Combination of acids, detergents and inhibitors
 S.G.: 1.14-1.16

DIRECTIONS FOR USE:

Concentrations:

- For regular washing and brightening of equipment in good condition, use **MAGNUS 88-XL** diluted 1:9 to 1:19 part with water, depending on the extent of the soil encountered.
- For cleaning and brightening severely corroded or very dirty equipment, use **MAGNUS 88-XL** diluted 1:5 with water or even strong as 1:1 with water.

Solutions of **MAGNUS 88-XL** can be applied by low-pressure spray or brush. Allow to stand until reaction ceases, then scrub off, rinsing well. Heavily soiled and corroded areas may require a second application.

Note:

- Glass, magnesium and anodized aluminium should be masked or removed.
- Brass, copper and Type 316 SS may be treated with **MAGNUS 88-XL**. Type 316 SS is attacked slightly (5 mills penetration per year).
- Nylon, rubber, neoprene or plastic equipment is safe with **MAGNUS 88-XL**.

Ref. No. 01/24 as per supplier

PRECAUTIONS:

- Keep out of reach of children.
- Use in well-ventilated area when spraying on product.
- Do NOT inhale spray or vapours.
- Do NOT ingest.

CAUTION: *Product contains hydrofluoric and other mineral acids. May cause skin irritation and burning.*
