

MAGNUSOL DEGREASER

SOLVENT EMULSION CLEANER

PRODUCT USE:

MAGNUSOL DEGREASER is a liquid solvent emulsion cleaner designed for removal of industrial fall out, grease and oil and other heavy mining soils from the exterior surfaces of support vehicles. Can also be used for general cleaning of engines, gearboxes, spare parts and floors.

ADVANTAGES:

- Multi Metal Safe
- Biodegradable at recommended concentrations
- Quick split emulsion when treated
- Designed for use through Foam and Clean Units
- Free rinsing
- No flash point at recommended concentration

PRODUCT DESCRIPTION:

Appearance: A light yellow, clear to slightly hazy liquid
 Components: A blend of solvents, surfactants and water softeners
 S.G.: 1.06

DIRECTIONS FOR USE:

Foam and Clean

Heavy soiled areas dilute 1:1 with water and apply to surface as a foam; allow to dwell and rinse off with water. For maintenance cleaning and lightly soiled areas, dilute product 1:3 with water and apply as above.

Hand Wipe Cleaning

Dilute 1:1 with water and apply to surface with a "hollow" brush to ensure fresh cleaner is being applied to soiled surface at all times. Rinse well with clean water.

Floor Cleaning

Dilute 1:1 with water. Apply to wet floor, brush in well with stiff bristled broom. Allow to dwell and then rinse off with water.

High Pressure Cleaning

Use as received through high pressure equipment. This will give approximately a dilution 1:10 at the nozzle. If equipment inducts under low pressure only, apply chemical under low pressure and using high pressure rinse off.
